RESUME OBJECTIVE

A Software Engineer with over 3 years of work experience in software product development. Worked on multiple products from scratch; have been involved in requirements gathering and analysis; in suggesting improvement and new ideas; leading development teams, and training resources.

SKILLS

Python; Flask; FastAPI; SQLAlchemy; PostgreSQL; MySQL; Swagger; ExpressJS; NodeJS; VueJS; JavaScript; git; mongoDB; redis; docker; Bootstrap; Celery; AWS; Pytest; turborepo; tailwind, and Full Stack.

WORK EXPERIENCE

At SenecaGlobal, INC – August 2019 – Present- Full Stack Python Developer

- **Green Street Advisor**, INC, USA: Green Street is a financial services company; I work with them as an offshore full stack developer in developing products for their customers.
- **Kaizen Application**: To keep track of all the kaizen nominations company-wide, SenecaGlobal needed a tool to log all the nomination data. I worked as a Frontend Developer for this project.
- **SG-Thanksgiving**: A small application that served the purpose of a common portal where employees could express their gratitude toward each other on Thanksgiving. I own this application.
- **CDP Tool**: CDP tool is one of the other tools developed per SenecaGlobal policies to incentivize their employees per the necessity. I worked as the lead Python developer for this tool.
- **SG-Leave Management**: Worked as a backend python developer to develop an in-house tool to manage employees' leaves per company policy.

EDUCATION

Bachelor of Technology. In Computer Science & Engineering

JNTUA, Anantapur, AP, INDIA.

2015 - 2019
